company  
Supplier of Wine Bottles, Caps, Corks and Closures

## ADVANTAGES OF UV SCREEN PRINTING OVER PAPER LABELS

- Eliminates a step in bottling process – bottles are preprinted and there's no adhesive to gum up the line and cause delays
- UV screen printing is durable - less susceptible to friction, scuffing
- Colors more vibrant – more attractive, better shelf appeal
- Creative freedom with artwork that can wrap around the bottle
- For transparent or translucent product, an image can be printed to be visible from the opposite side of the bottle
- Breakage won't ruin labels on surrounding bottles
- "Green" – paperless, little solvent used
